

## **PUPPY AND DOG TRAINING**

An obedient and well trained dog is a pleasure to own. Unfortunately this will not be achieved overnight and a lot of hard work and effort is required.

Consistency and repetition are important factors – ground rules must be followed by all members of the family.

Methods of dog training vary. It is advisable to contact and, or visit as many classes as possible to see which type suits both you and your dog.

Most classes accept puppies which are fully vaccinated for socialisation and training. We recommend you take along your dog's vaccination record card to your first class. Courses tend to run over a period of 10 weeks but you can progress at your own pace.
